Mr. James J. Hastings
Deputy Director
Nixon Presidential Materials Project
National Archives and Records Service
General Services Administration
Washington DC 20408

Dear Mr. Hastings:

Reference is made to your letter, dated January 27, 1983, to Robert M. Yahn of my staff requesting assistance in locating the White House files of Egil Krogh. A search of Department of Justice (DOJ) records has failed to locate the missing files.

While our search centered on current staff in the Office of the Deputy Attorney General, the Criminal Division and the Federal Bureau of Investigation, it included inquiries to a number of individuals formerly employed at DOJ during the Watergate era. Receipt and review of these files at various points in DOJ during 1973 and 1974 was confirmed. However, we have no remaining leads as to where the Krogh records were transferred after their use by DOJ officials in May 1974 or where they are currently housed.

My office will continue to pursue any additional information that may develop on this subject and advise you immediately of any positive results. We share your concern that these files be located and transferred to the National Archives as soon as possible.

Sincerely,

Terry Appenzeller
